

Basic Info

Model NO.: ABIS59

Driving Motor Type: Permanent Magnet

Mold Cavity Technology: CNC Milling

Milling Speed: Normal Speed

Parts Detection Method: Measurement of Three Axis

NC Name: Progressive Stamping Die for Sheet Metal Parts

Lead Time: 45 Days

Packing: Wooden Case

Customized: Customized

Model No: ABIS59

Tolerance: $\pm 0.01\text{mm}$

Die Life: 500, 000 Shots

Mould Material: Cr12, Cr12MOV, DC 53, Skh-9, 45# etc

Cavity: 1 to Multiple

Certificate: ISO9001:2008, SGS

Trademark: huihai auto

Transport Package: Wooden Case

Specification: SGS, ISO

Origin: Shenzhen

Product Description

Special info.:

Customized design according to customer part design or sample.

Mold base: Standard mould base or customized

Inserts(cavity and core): Cr12mov, SKD11, D2, M2, DC 53, SKH-9, Copper alloy or the material you required.

Standard parts: MISUMI, PUNCH, DAYTON, DANLY (Japan or Europe US)

Part material: SPCC, SPCE, SPCD, DC01, DC04, Stainless steel 304.430.316, Aluminum alloy, and so on

Lead time of first samples: Around 4~7weeks.

Our Advantages:

1. Competitive price
2. Strict quality control system (ISO9001 system manage)
3. Quick mold making and delivery (4-7weeks)
4. Advanced equipment, excellent R&D teams
5. Professional technicians and rich experienced workers

ABIS specializes in manufacturing and supplying of various moulds and dies, such as metal stamping dies, plastic injection moulds, motor stator&rotor molds and stamping parts and injection parts since 2005.

Huihai provides various molds & dies to the clients from USA, Spain, Italy, Russia and so on.

"Good quality with cost-effective" is the base of ABIS business. people keep creating value for customers as our mission.
